Guidance Notes on the Use of
The Standard Bidding Document

This Standard Bidding Document for Procurement of Goods, has been prepared by Government of Nepal (GoN), Public Procurement Monitoring Office (PPMO) to facilitate a National competitive bidding procedure and is applicable to all the Public Entities as defined in Public Procurement Act, 2003.

These guidance notes have been prepared by the PPMO to assist a Procuring Entity in the preparation of Bidding Document, using the Standard Bidding Document, for the procurement of Goods and Related Services. Guidance notes in the Standard Bidding Document within the left square bracket and right square bracket should be deleted.

This document has 8 Sections, of which Section 1 (Instructions to Bidders) and Section 3 (General Conditions of Contract) must not be altered or modified under any circumstances. The Invitation for Bid (IFB) is a copy for advertisement that provides relevant and essential information to help the Bidders to decide whether or not to participate in the particular bidding process; this is provided in the Bidding Document for information only.

The way in which a Procuring Entity addresses its specific needs is through the information provided in the Bid Data Sheet (BDS) and the Special Conditions of Contract (SCC) as well as in the detailed requirements of the procurement in the Schedule of Requirements.

This Standard Bidding Document, when properly completed will provide all the information that a Bidder needs in order to prepare and submit a bid. This should provide a sound basis on which a Procuring Entity can fairly, transparently and accurately carry out a bid evaluation process on the Bids submitted by the bidders.

The Procuring Entity, before publishing the Invitation for Bids, should identify and approve from the competent authority the procurement requirements, its technical features, and cost estimate. Furthermore, the Procuring Entity should keep in mind the availability of the budget and possible slicing and packaging of the procurement requirements.

The following briefly describes the Sections of the Standard Bidding Document and how a Procuring Entity should use these when preparing a particular Bidding Document.
Section I. Instructions to Bidders (ITB)

This Section provides relevant information to help the Bidders to prepare their Bids. Information is also provided on the submission, opening, and evaluation of Bids and on the award of Contract.

The Instructions to Bidders (ITB) specify the procedures that regulate the bidding process. The ITB contain standard provisions that have been designed to remain unchanged and to be used without modifying their text. The ITB clearly identify the provisions that may need to be specified for a particular bidding process and require that such specification be introduced through the BDS.

This Section also contains the criteria to be used by the Purchaser in order to determine the lowest evaluated Substantially Responsive Bids and the qualifications of the Bidder to perform the Contract.

The Instructions to Bidders are not a Contract document and, therefore, are not a part of the Contract.

Section II. Bid Data Sheet (BDS)

The Bid Data Sheet (BDS) contains information and provisions that are specific to each bidding process. The Purchaser must specify in the BDS only the information that the ITB request be specified in the BDS. All information shall be provided; no clause shall be left blank.

To facilitate the preparation of the BDS, its clauses are numbered with the same numbers as the corresponding ITB clauses. This Guide provides information to the Purchaser on how to enter all required information, and includes a BDS format that summarizes all information to be provided.

Section III. Evaluation and Qualification Criteria (EQC)

The purpose of the Evaluation and Qualification Criteria (EQC) is to specify the criteria that the Purchaser will use to evaluate the Bids and post-qualify the lowest-evaluated Bidder. The Procuring Entity shall prepare the EQC by taking into account the nature, quantity and or amount of the procurement and its related services and include it as a part of the Bidding Document. In determining the Evaluation and Qualification Criteria, the Procuring Entity should not limit the competition or make onerous criteria.

The EQC is not a part of the Contract document.

The Procuring Entity shall specify the evaluation criteria as follows in Section III Evaluation and Qualification Criteria (PQC):
Financial and Technical Criteria

If the Procuring entity wants to evaluate the Bids taking into account, in addition to the Bid price quoted in accordance with ITB 15, one or more of the following factors it must specify the factors in this Section of the Bidding Document.

These criteria should specify the minimum technical level that the Goods and Related Services shall have in order to comply with the Section V, Schedule of Requirements. Whenever possible, these criteria should be evaluated on a pass-fail system, with a minimum acceptable level for each criteria enumerated.

However, a minor deficiency in technical compliance may not be cause for rejection of the Bid. An example of such non-substantive deficiency is the case of an auxiliary motor of which the power rating falls short of that specified, or a proposal to supply cross-ply tires for a vehicle instead of radial-ply as specified. The cost of making good any deficiency should likewise be added to the Bid Price concerned. The most frequently used methods assign to the non-conforming items or components, prices based on similar methods described above under Scope, with the price of the non-conforming items or components deducted.

Commercial Criteria

The commercial criteria are most important when evaluating a Bid. Price, however, may not be the only criterion, as there could be other criteria that may be expressed in monetary terms. For energy consuming equipment and facilities, adjustment for efficiency over and above the minimum functional guarantees specified in the specifications (e.g. generators, pumps), losses (e.g. transformers), and future operating costs of the equipment may be taken into account in the determination of the evaluated Bid Price. The financial cost for these adjustments (added to or deducted from the Bid Price in the case may be) shall be made only when it is specified in the Bidding Document that these functional guarantees and projected operating costs are factors in bid evaluation. The methods of calculation for these evaluation factors shall be clearly specified in the Bidding Document.

If commercial criteria are not considered for evaluation of Bid, the Procuring Entity shall specify "Not Applicable".

Adjustment for Deviations from the Terms of Payment

The Purchaser must state here whether deviations from the terms of payment as specified in Special Conditions of Contract, Sub-Clause 16.1, are not permitted.

If adjustment for deviations from the terms of payments are not considered for evaluation, the Procuring Entity shall specify "Not Applicable".
Adjustment for Deviations in the Delivery and Completion Schedule

Bidders are required to base their prices on the Delivery and Completion Schedule specified in Section V, Schedule of Requirements. The Purchaser state here whether deviations from the specified Delivery and Completion Schedule are not permitted.

Performance and Productivity of the Goods

"Not Applicable"
Qualification Criteria

For the procurement of ordinary, readily available, off-the-shelf items, a thorough checking of the qualification of the bidders may not be necessary, apart from ensuring that the technical specifications are met, and that the equipment or machinery has been sufficiently tested in practical terms.

If there is a need to ensure that the lowest-evaluated Bidder has the necessary qualifications to successfully fulfill its obligations under the contract, as the case may be for the procurement of expensive and technically complex items of plant, equipment and machinery for which a separate prequalification exercise was not considered feasible, the Purchaser may specify appropriate qualification criteria in this section.

Depending on the nature of the procurement, taking money and time at risk into account, Bidders’ qualifications regarding critical aspects of their financial, technical, production, shipping, installation and other capabilities necessary to perform the contract may need to be examined. It will be necessary to seek only information essential to determine the Bidder’s capabilities to execute the contract satisfactorily. All these criteria shall be evaluated on a pass/fail basis only. Minimum acceptable levels with regard to Bidders’ experience in supplying goods and related services with comparable technical parameters, its manufacturing and installation capacity, its financial capability and other factors must be defined.

The following criteria may be used individually or in combination to establish one or several critical qualifications of the Bidder:

Size of Operation
Not Applicable

Contractual Experience
Not Applicable

Technical Experience

Production Capacity
Minimum supply and production capacity required to assure that the Bidder is capable of supplying the type, size, and quantity of the Goods required.

Section V. Bidding Forms
This Section provides the standard format for the Bid Submission Form, Bidder’s Information Form, Financial Situation Form, Average Annual Turnover Form, Financial Resources Form, Pending Litigation Form, Specific Experience Form Price Schedule, Bid Security Form and the Manufacturer’s Authorization Letter to be submitted by the Bidder.

In the case of Price Schedule, the Procuring Entity shall fill the column 1 item and column 2 descriptions of Goods and related services in accordance with Schedule of Requirements. This Guide helps the Purchaser and Bidder to fill in all the required information in the Price Schedule Form.

Section V. Schedule of Requirements (SR)
This Section provides the information on the List of Goods and Related Services, Delivery and Completion Schedules, Technical Specifications and Drawings. The Procuring Entity must be carefully prepare this section for each object of procurement.

The Schedule of Requirements (SR) shall provide sufficient information to enable Bidders to efficiently and accurately prepare Bids that are realistic and competitive. The SR is a part of the Contract document and, therefore, The Purchaser must prepare the SR and include it as a part of the Bidding Document.

The SR should be complete, precise, and clear. An incomplete, imprecise, or unclear SR may prompt Bidders to require clarifications from the Purchaser or to submit conditional bids that may be based on different understandings of the Purchaser’s requirements. Depending on the nature of the clarifications, the Purchaser may need to amend the Bidding Document and eventually to extend the bid-submission deadline. Conditional bids would lead to the rejection of Bids. Bids that are not comparable cannot be evaluated.

The Procuring Entity shall assign experienced staff to draft the SR in a manner permitting the widest possible competition, while at the same time clearly specifying the required standards of workmanship, the characteristics of materials and performance of the Goods, and the delivery and completion of the Goods and Related Services. Only by following this approach will ensure that the objectives of economy, efficiency, fairness, and transparency in procurement can be realized as envisaged under National Competitive Bidding (NCB) procedures.
Section VI. General Conditions of Contract (GCC)

The GCC contain standard provisions that have been designed to remain unchanged and to be used without modifying their text. This Section provides the General Conditions of Contract that will apply to the Contract for which the Bid document is issued. The GCC clearly identify the provisions that may normally need to be specified for a particular bidding process and require that such information be introduced through the SCC.

Section VII. Special Conditions of Contract (SCC)

This Section provides Clauses specific to the particular Contract that modify or supplement Section VI: General Conditions of Contract.

The Special Conditions of Contract (SCC) contain provisions that the GCC require be specified for a particular bidding process. The Purchaser should include at the time of issuing the Bid document, all information that the GCC indicate shall be provided in the SCC. No SCC Clause should be left blank.

To facilitate the preparation of the SCC, its clauses are numbered with same numbers as the corresponding GCC clauses. This Guide helps the Purchaser to input all information required. It includes a SCC format that summarizes all information to be provided.

The SCC is the part of Contract Document, therefore, the Procuring Entity shall provide the information in appropriate manner as indicated in the SCC.

Section VIII. Contract Forms

This Section contains the Sample letter for the intention of contract award, Form of the Notification of Award, and Contract Agreement Form, the forms for Performance Security and Advance Payment Security.

26.64 If the Supplier fails to notify the Purchaser within thirty (30) days after receipt of such notice that it intends to conduct any such proceedings or claim, then the Purchaser shall be free to conduct the same on its own behalf.

26.65 The Purchaser shall, at the Supplier’s request, afford all available assistance to the Supplier in conducting such proceedings or claim, and shall be reimbursed by the Supplier for all reasonable expenses incurred in so doing.

26.66 The Purchaser shall indemnify and hold harmless the Supplier and its employees, officers, and Subcontractors from and against any and all suits, actions or administrative proceedings, claims, demands, losses, damages, costs, and expenses of any nature, including attorney’s fees and expenses, which the Supplier may suffer as a result of any infringement or alleged infringement of any patent, utility model, registered design, trademark, copyright, or other intellectual property right registered or otherwise existing at the date of the Contract arising out of or in connection with any design, data, drawing, specification, or other documents or materials provided or designed by or on behalf of the Purchaser.

not exceed the total Contract Price, provided that this

Any claims by the Supplier for adjustment under this Clause must be asserted within thirty (30) days from the date of the Supplier’s receipt of the Purchaser’s change order.
